Memo To File:

RE: Uintah County Tar Sands
PRO/047/022, Folder
Uintah County, Utah

I talked with Donald S. Prince, Assistant Director of State Lands and Forestry about the Uintah County Tar Sands Mine Bond on February 17, 1984. He said that they (meaning he) have the right to determine if a bond is required or not. He said that in this case they are not requiring it. I asked if that was a policy or not. He said no and that he has the right to determine whether or not a reclamation surety is required.

I told him that we will require a surety, it is in our regulations and that it must be approved by the Board of Oil, Gas and Mining.
